**Emmanuel Centre 9-23 Marsham Street
WESTMINSTER LONDON SW1P 3DW**

2016 European Creation Conference

This promises to be a great opportunity for hundreds of like-minded Christians to become better equipped to "...destroy arguments and every lofty opinion raised against the knowledge of God..." (2 Corinthians 10.5). It is designed for laypeople, but with sufficient breadth and depth to satisfy the academically-minded, so there is plenty for everyone.

JONATHAN SARFATI has a Ph.D. in Physical Chemistry and is a senior scientist, speaker and internationally renowned apologist with CMI in the USA. A prolific author, his books include the *Refuting...* series, *The Greatest Hoax on Earth?* and *The Genesis Account*. He is also a former New Zealand Chess Champion.

STUART BURGESS is Professor of Engineering Design at *Bristol University*. The winner of many awards in bio-inspired design and biomechanics, he has over 140 publications to his name in academic journals. A visiting professor at *Liberty University* (USA) and popular lay-speaker, he has authored several books.

VIJA SODERA is a Fellow of the *Royal College of Surgeons of Edinburgh* and runs his own Skin Surgery clinic on the south coast of England. He has authored seven skin surgery and skin cancer diagnosis textbooks and the acclaimed *One Small Speck to Man: the evolution myth*. Audiences love his lay-level anatomy talks.

DOMINIC STATHAM is a speaker, researcher and writer for CMI (UK/Europe). An accomplished engineer, he formerly spent twenty-five years working with leading companies such as *Rolls Royce* (Aero Division). He is author of *Evolution: Good Science?* and speaks extensively in the UK and overseas.

PHIL ROBINSON is Chairman of *Creation Outreach Ministries* and an associate speaker and writer for CMI based in Northern Ireland. With degrees in Physical Education (B.Ed.) and Theology (M.Div.), his passion to communicate creation truths leads to regular articles on a wide variety of subjects at creation.com.

FLORIN MOCANU is a full time pastor in the Midlands and an associate speaker with CMI. Theological trained (B.A., M.Th.), he is undertaking a university degree which includes courses in cellular and molecular biology. A native of communist Romania, where evolution was taught as fact, he is a keen creation evangelist.

THOMAS FRETWELL has a B.A. and M.A. in Theology and is an associate tutor in theology and apologetics at *Kings Evangelical Divinity School*. He lives in the south-east of England and serves as an elder and in youth ministry in his local church. Currently he is writing a book, *Who am I? Human identity and the Gospel*.

PAUL JAMES-GRIFFITHS has a B.A. in Ancient History and is a qualified teacher. He has worked as a chaplain to West End Theatres, with *Edinburgh City Mission*, and is the founder and director of *Christian Heritage Edinburgh*. A pagan prior to his conversion to Christ, he is a knowledgeable and engaging creation speaker.

PHILIP BELL is CEO of CMI (UK/Europe) and has worked full time as a creation apologist since 2001. His background is in zoology, geology, cancer research and secondary school science teaching. Passionate to uphold biblical authority, he is a regular CMI writer and has given talks throughout the UK and abroad.
